

You are a member of your co-op.

Every family that gets its electricity from a co-op is a "member" of that co-op. Being a member of a co-op is a lot like being a member of a club. Members get to vote for the co-op's leaders. Members help decide how the co-op works. Co-op members all work together. They want their co-op to be the best it can be!
